## *Preface*

Conference World and AR Research Publication is fast growing group of academicians in Engineering, Sciences and Management. AR Research Publication is also known for fast reply and zero error work. Conference world has organized a various conferences at renowned places across the country.

We are very pleased to introduce the proceedings of the International Conference on Emerging Trends in Science and Cutting Edge Technology (ICETSCET-14) organized at YMCA, Connaught Place, New Delhi on 28 September, 2014. The level of interest in the subject matter of the conference was maintained from previous events and 218 suitable papers were submitted for presentation at the conference. This required the program to be organized in two parallel sessions, each on a specific theme, to provide each paper with sufficient time for presentation and to accommodate all of them within the overall time allocated.

One of the sessions contained all the science and engineering papers. A second session was devoted to the theme of development in management and social sciences. Papers were well represented in the conference to arouse a high level of international interest. Many foreign authors also showed their interest in conference from Nigeria, Egypt, Malaysia , Iran .... In the event, the conference was highly successful. The 218 presented papers maintained the high promise suggested by the written abstracts and the conference was chaired in a professional and efficient way by the session chairmen who were selected for their international standing in the subject. The number of delegates was also highly gratifying, showing the high level of international interest in the subject. This is also indicated by the large number delegates from different states. This Proceeding provides the permanent record of what was presented. Finally, it is appropriate that we record our thanks to those who served as chairmen, without their support the conference could not have been the success that it was. We also acknowledge the authors themselves, without whose expert input there would have been no conference. Their efforts made a great contribution to its success.

Proceeding of the conference has been published with ISBN: 978-93-87793-92-7.

All the accepted and presented papers of the duly registered authors will be published in the special conference issues of the following international journals

- **International Journal of Advance Research in Science and Engineering (IJARSE, ISSN- 2319-8354)**  
[[www.ijarse.com](http://www.ijarse.com)]
- **International Journal of Electrical & Electronic Engineering (IJEEE, ISSN-2321-2055)**  
[[www.arresearchpublication.com](http://www.arresearchpublication.com)]
- **International Journal of Advance Technology in Engineering & Science (IJATES, ISSN-2348-7550)**  
[[www.ijates.com](http://www.ijates.com)]
- **International Journal of Science Technology and Management (IJSTM, ISSN-2394-1537)**  
[[www.ijstm.com](http://www.ijstm.com)]
- **International Journal of Innovative Research in Science and Engineering (IJIRSE, ISSN-2454-9665)**

## **About Conference**

International Conference on Emerging Trends in Science and Cutting Edge Technology (ICETSCET-14) is a global event organised by Conference World and AR Research Publication conducted at YMCA, Connaught Place, New Delhi. This conference provides an international forum for researchers, developers, engineers and practitioners who are involved in real time projects that provide solutions to exchange their valuable ideas and showcase the ongoing works which may lead to path breaking foundation of the futuristic engineering. It accentuates indispensability of interdisciplinary and cross – linked thinking with respect of innovation and market opportunities. Accepted paper will be published in International Journal with ISSN . All Accepted papers will be published in Conference proceeding having ISBN .
